

## Canon X10C Color Document Scanner

The DR-X10C is Canon's premier scanner in the mid-volume production segment. Boasting high-speed, high-quality image scanning, with reliable document handling capabilities, clear, efficient, and easy image scanning, and superior durability, the DR-X10C fits the demanding requirements of centralized scanning operations.

The DR-X10C delivers unrivaled image quality at rapid speeds of up to 128 pages per minute and 256 images per minute, in color, grayscale, or black-and-white. The energy efficient and durable DR-X10C, with its operator friendly design, is the ultimate solution for quality production level scanning.

As Canon's flagship scanner in the mid-volume production segment, the DR-X10C is perfect for all mid-volume production scanning needs.

### FEATURES & ADVANTAGES

- The DR-X10C scanner is capable of maintaining impressive scanning speeds of up to 128 pages per minute and 256 images per minute, in color, grayscale, or black-and-white.
- Onboard Image Processing chip can handle multiple image processing functions virtually independent of connected PC performance for quick scan jobs.
- The industry's first dust-free scanning system prevents dust particles from adhering to the sensor glass minimizing manual cleaning.
- Three user-adjustable Ultrasonic Double-Feed Detection sensors and Double-Feed Retry mechanism promote flexible document handling for more unattended batch scanning.
- The DR-X10C features a robust design capable of handling approximately 60,000 scans per day meeting the demands of production level scanning.
- Intuitive control panel displays scanner settings, messages and allows the user to pre-register Scan-To-Job buttons for customizable one-touch job access.
