

Cummins JetSort 6000

Increase Counting Speed and Accuracy

JetSort® coin sorters have set the world standard for coin sorting speed, accuracy and reliability for over twenty years. All JetSort models feature a coin sorting mechanism that has only one moving part, simplifying operations and making removal of stray material fast and easy while providing unmatched durability and reliability. Precision machined to a few thousandths of an inch, JetSort counts and sorts mixed coins with 99.995% accuracy.

SPECIFICATIONS

Sorting Speed -- Up to 10,000 coins per minute.
Coins Sorted -- 1¢, 5¢, 10¢, 25¢, 50¢, \$GD/\$SBA
Sorting Accuracy -- 99.995%
Dimensions -- 42.25" H x 26.25" W x 23.5" D

MODEL FEATURES:

Touch Screen Panel -- Puts the key operations right at your fingertips. Only those functions that can be utilized at a given time are displayed, allowing for even the most inexperienced user to perform operations with ease.

Exact Bag Stops -- Allows JetSort® to stop on the exact bag count every time.

Lift Tray -- A large capacity lift tray pours coins quickly and neatly into the sorter.

OPTIONS AND ACCESSORIES:

Dual Bagging -- Ideal for high volume coin or token processing, the flow of coins is automatically switched to a new bag when the first bag reaches its limit.

Printer -- Provides permanent, easy-to-read record of coin processing.

Remote Display -- Large, red LED display shows coin totals for customer viewing.

Security Doors -- Conceals and secures all coin bags, while reducing sorting noise level.
