

Datruie Process Automation Provides AUTHORIZED Sales & Service for Panini, Digital Check, Canon and RDM scanners.

In addition, Datruie provides onsite service and warranty work.

Contact Datruie for all of your Check 21 Hardware and Software needs. We have the experience and products to assist you in taking complete advantage of Check 21 opportunities, from Image Cash Letters (ICL) to Remote Customer Deposit, Return & Exception Item Processing, Merchant Capture and Remittance Processing. Datruie has the solution you need.

Choose Datruie as your partner with Onsite Service to ensure proper training, support, and operation of your equipment.

We are not a mail order service, we are a local business with locations in Mandan & Fargo, North Dakota and Billings, Montana. Our trained service technicians can provide onsite service usually within hours of an equipment or software malfunction. We also have remote software support capabilities to assist you in getting your mission critical systems back online quickly.

Call us today to get personal attention with a local sales associate.

Shear Tech MJ-2500 Mini Jogger

An important part of any Check 21 check image capture solution . Jogging a batch of checks for a few seconds perfectly aligns the bottoms and side edges of checks which reduces chances of check jamming and double feeds. A check jogger from Shear Tech will significantly reduce your chance of errors.
