

6300 Series

FOR FOLDING & INSERTING

Standard Features

- Three fully automatic insert stations
- AutoSet™ one-touch set-up
- Clamshell design for easy access to paper path
- Fully automatic adjustments
- Nine programmable fold applications
- User-friendly display for easy set-up
- Processes up to 2,750 pieces per hour, and up to 30,000 pieces per month
- Seal and non-seal capabilities
- Two counters: One resettable for addition and batch counting, and one non-resettable
- Four adjustable insert fingers
- Double document detection
- Folds and inserts up to five sheets of paper
- Fold types: C, V, Z, Double Parallel

Abilities:

- Folds and/or inserts sheets, business reply envelopes and cards automatically in almost any combination
- Multi-feeding - Allows for a set number of pieces to be pulled from one feeder, then collated and inserted automatically
- Folding only without inserting
- Daily Mail mode for inserting stapled sets

Options:

- Short Feed Trays
- OMR: Optical Mark Recognition
- Conveyor
- Side Exit Tray
- Cabinet
- Big Bin Paper Stacking Cart
- 400 Series Joggers

Fully Automatic 3-Station Inserter

The 6300 Series Inserters offer two models for your specific job needs. The 6300-Standard 3 comes with three standard automatically adjusting feed stations. The 6300-Special 3 has two standard feeders and one special feeder that can be manually adjusted for glossy and thicker stock. The 6300 Series is ideal for processing documents in a timely and hassle-free manner. The versatility of this unit allows for processing forms of various lengths and thickness all at the same time. The exclusive AutoSet™ features makes processing forms a snap by sensing and automatically setting the paper length, paper thickness, fold type, envelope size and double document detection.

Flexible

The 6300 Series is available in two models to meet your specific processing needs. A variety of documents up to 14" in length, including checks, invoices, newsletters and reply envelopes can be inserted in almost any configuration. The 6300-Special 3 has a special feeder that allows for the insertion of glossy and thicker documents as well. An optional conveyor or side exit tray can be added to maximize your operator productivity.

Powerful

The 6300 Series processes at a rate of up to 2,750 pieces per hour and can handle up to 325 sheets in each feeder. Feeders can be filled on-the-fly allowing for continuous operation. The cascade mode maximizes output by connecting multiple feeders filled with the same documents. When one feeder empties, the next automatically starts feeding, for a total hopper capacity of 975 sheets. The enhanced folding system folds and inserts up to five documents at one time.

Secure

The 6300 Series has double document detectors located at each feed station to ensure document integrity. Optical Mark Recognition is an available option which allows for the automatic insertion of multiple-page documents. OMR determines which documents go together into each envelope, eliminating the tedious task of manually collating and inserting.

Easy to Operate

The AutoSet™ feature automatically detects and sets paper length, fold type, envelope size, fold length and double document detection. Simply load the documents into the feed hoppers and go. The 6300 Series also includes nine programmable fold settings for recurring or frequently processed applications. The drop-in feed system and easy access to paper paths increase efficiency and maximize output.

Specifications:

Speed:	Up to 2,750 pieces per hour
Feed Hoppers:	Up to 325 sheets each, 20# paper
Envelope Hopper:	Up to 250 envelopes, top-loading
Paper Size:	3 1/2" - 14" L x 5 1/8" - 9" W *
Envelope Size:	3 1/2" - 6 3/8" H x 6 1/4" - 9 3/4" W *
Dimensions:	16 1/2" W x 53" L x 26" H
Weight:	226 lbs.
Duty Cycle:	Up to 30,000 pieces per month
Voltage:	110 - 120 VAC (50/60 Hz)
Safety Certifications:	UL, CSA certified

* All paper & envelope specifications may vary. All media must be tested.

User Friendly Control Panel

The control panel makes operation a breeze with pictographs and one-touch selections

Horizontal feeders offer a loading capacity of up to 325 sheets each

A **400 Series Jogger** is a recommended option that reduces static electricity from forms and aligns them for proper feeding
