

### Panini My Vision X

The Panini My Vision X, a high performance check processing solution developed and manufactured by Panini, is characterized by its ease of use and scalability. The modern, ergonomic design and quiet operation of the Panini My Vision X ensures a solution strategically designed to support an wide array of distributed check capture applications.

The Panini My Vision X, available in speeds of 30 documents per minute (dpm), 60 dpm, and 90 dpm, is a compact, robust check scanner designed to read the check MICR line, capture the front and back of the check, and print customized endorsement information. Key product features include a patent-pending, 3-mode feeder (single, 30, or 100 documents), MICR Plus™ recognition technology, programmable rear inkjet endorser, USB 2 interface, and front and rear image capture of up to four images at 200 dpi. The device offers true scalability. The transport speed can be upgraded in seconds over the network through the device firmware.

#### Benefits

- Centralized Operations Center Cost Reduction
- Creation of New Market Opportunities
- Customer Retention / Capture
- Earlier Processing
- Elimination of Redundant Processing
- Fraud Reduction
- Reduction in Transaction Errors
- Smoothed Workflow / Staffing Expense
- Transaction Time Reduction
- Transportation Savings
