

HIGH SPEED COIN COUNTER

CHS-10

CHS-10

Simply designed desktop coin counter provides first class ease of operation.

High volume counting with simple operation

Counting cash is a task that is time-consuming and must be error-free. Billcon's new high speed coin counter CHS-10 processes high volume of coins at a rate of 3,700 per minute (Dime) for accurate, rapid and efficient cash counting. Coins that cannot be counted and smaller size coins are deposited into a reject box, while larger size coins remain in the hopper. For operators, the CHS-10 is extremely easy to use, simplifying their work. The body of this desktop model has a low design, so it is easy to place a large quantity of heavy coins into the hopper. All controls are located on the front of the machine to make operation more convenient.

Model CHS-10 Features

- Electronic sensing technology for high speed counting contributes to saving time and cost by releasing operator from troublesome work.
- Heavy duty mechanism provides state-of-the-art reliability.
- Clear LED display and pushbutton switches offer user-friendly operation.
- Four easily selectable preset batches, with manual alteration, for any preset up to 9,999 increase convenience for banking, vending and all other industries.

Specifications	CHS-10	
	Counting Method	Electronic Counting
	Coin Diameter	Minimum 15 mm
		Maximum 38 mm
	Coin Thickness	Minimum 0.8 mm
		Maximum 3.6 mm
	Counting Speed	Approx. 3,700 coins per minute (Dime)
	Hopper Capacity	Approx. 10,000 coins (Dime)
	Preset Batches	Four preset batches or Any number up to 9,999
	LED Display	Count 5 digit, Batch Preset 4 digit
Dimension	W300×D500×H345 mm	
Weight	21kg	
Power Consumption	100 W	

Accessories

- RS-232C 2-channel interface (COP-02)
- Bag coin holder with trigger switch (COP-06)
