

Paymaster 9000 8-column Check Protector

Almost identical to the new machine, except that it's much cheaper! The machine embeds a forgery-proof, multi-color imprint deep into the surface of a check that is distinctive and impossible to alter. The machine comes with an easy loading ink ribbon cartridge and check guide. The keyed lock down also inhibits unauthorized use of the equipment. FULL 90-day warranty. NOTE: We also carry other check protectors for higher denomination amounts.

This reconditioned 8-column Paymaster machine imprints checks and money orders up to a maximum amount \$999,999.99 (U.S. Dollars). With all other security features of the other Paymaster machines, this 9000-8 is a very good buy.

Includes full 90-day warranty.

Pricing: MSRP \$625.00 NEW
