Fully featured and highly flexible device software

Complete remote management platform CASH CONTINUES TO BE THE MOST FREQUENTLY USED CONSUMER PAYMENT INSTRUMENT²

\$1.50 trillion

U.S. currency in circulation¹

Retailers everywhere are constantly looking for better ways to manage their business operations. Reducing the cost of doing business means better profitability. It's that simple. As labor costs continue to increase, retailers are pushing the boundaries on automating as many manual processes as possible. One of those is the cash handling process. Manual cash handling is labor intensive with several risks that include inaccuracy and security. At CIMA we take retail seriously and thanks to our industry leading cash automation solutions, retailers today can significantly reduce the cost of managing cash in their stores.

RETAIL **MARKET** OVERVIEW

- Cash volumes are high in the US
- Labor costs are increasing
- Retailers are expanding
- Retail is a broad market
- The ROI's are strong and compelling
- 1. Federal Reserve System, as of October 20, 2016
- 2. The State of Cash: Preliminary Findings from the 2015 Diary of Consumer Payment Choice, November 2016 (most current publishing)

HUGE MARKET OPPORTUNITY

Food / beverage

Cinema / theatre

Sporting goods

Casino

Fashion apparel

Pharmacy

Stadium

Retail services

Department store

Home improvement / hardware

Convenience stores

Theme parks / attractions

Hotels

RETAIL PORTFOLIO — OVERVIEW

Our product philosophy addresses multiple dimensions to ensure we recommend the right solution for the right application. We design and manufacture a robust portfolio of COIN and NOTE machines that DEPOSIT and RECYCLE. By ensuring we offer 3 size tiers (small, medium, large) of each type allows retailers to deploy the most appropriate machine to match their business requirement.

DEPOSIT \\\\ ONLY — SMART SAFES

Our range of note and coin DEPOSIT ONLY solutions allow businesses of all size to securely deposit cash in an intelligent deposit machine (smart safe). From a small, compact footprint unit to a larger high capacity / high speed unit we cater for all business requirements where speed, accuracy and security are essential.

SDM100S

STACKING BAG — 1,500 NOTES

SDM₁₀₀C

CANVAS BAG FREE FALL

RECYCLING SOLUTIONS — OVERVIEW

Retailers of any size and type can benefit from our wide range of note and coin **RECYCLING** solutions. From compact, low volume machines to larger high capacity and high speed solutions, CIMA delivers the industry's widest range of cash recycling technology. These solutions significantly reduce the time and cost of managing cash in-store, improve accuracy and reduce discrepancies.

A SOLUTION FOR EVERY APPLICATION

COIN AND NOTE RECYCLERS

(LOW TO MEDIUM CAPACITY)

ARGENTO

SDM504S NOTE RECYCLER

- ◆ Deposit: 6 notes/sec
- ♦ Withdraw 5 notes/sec
- 4 recycling drums
- Up to 400 notes per drum
- ◆ Total recycling capacity: 1,600 notes
- Deposit capacity
 - 3,000 notes in heat sealing stacking bag
- ◆ Integrated 7" touch screen with CAOS software
- ◆ Integrated 3" thermal receipt printer
- Multiple safe options available

CDS803 COIN RECYCLER

- ◆ Deposit: 10 coins/sec mixed
- Withdraw: 48 coins/sec mixed
- Input tray: 1,000 coins mixed
- Recycling capacity
 - o 18,000 coins
 - o 8 hoppers
 - 8 recycling denominations
- ◆ Overflow: 4,000 coins
- ◆ Total capacity: 22,000 coins
- Till customization possible

(MEDIUM CAPACITY)

ORO

ORO PRO

SDM505S NOTE RECYCLER

- Deposit: 6 notes/sec
- Withdraw: 5 notes/sec
- 5 recycling drums
- Up to 400 notes per drum
- Total recycling capacity: 2,000 notes
- Deposit capacity
 - 4,000 notes in heat sealing stacking bag
- ◆ Integrated 7" touch screen with CAOS software
- Integrated 3" thermal receipt printer
- Multiple safe options available

CDS804 COIN RECYCLER

- ◆ Deposit: 10 coins/sec mixed
- ◆ Withdraw: 45 coins/sec mixed
- ◆ Input tray: 1,000 coins mixed
- ◆ Recycling capacity
 - 40,000 coins
 - o 9 hoppers
 - 5 recycling denominations
- ◆ Till customization possible

CDS804 FULL COIN RECYCLER

- Same features as CDS804
- Additional features:
 - 6,000 coins capacity tray

 - 8kg (17.64lbs)
 - Ideal for moving single denomination surplus coins

- - cassette
- Deposit capacity
 - Up to 3,000 notes in a cassette Touch screen PC + receipt printer

Software is a critical component of any cash handling solution. At CIMA, we focus on two areas of software: ON-DEVICE and REMOTE MANAGEMENT. We provide an on-device application called CAOS which is highly flexible and configurable to suit any business requirement. For larger, multiple site implementations, we provide a remote management platform called C-LINK, which significantly reduces the amount of on-site support time.

A COMPLETE ON-DEVICE MANAGEMENT APPLICATION WITH **EVERYTHING YOU NEED TO OPERATE CIMA CASH-HANDLING** DEVICES AND CONNECT THEM TO 3RD PARTY APPLICATIONS

- Customizable language
- Flexible user management
- Channels and categories
- Accounting date and shifts
- Checks and ticket processing
- Web based administration
- Customizable look & feel
- Flexible workflow customization
- Flexible start/end of shift processing
- Connection to 3rd party applications

ONE APPLICATION ACROSS ALL DEVICES AND COMBINATIONS

REMOTE DEVICE **MANAGEMENT**

MONITORING AND UPDATE MANAGEMENT

- Remote status monitoring
- Remote download of log files
- Remote update of firmware / note template / software

CASH-FLOW MANAGEMENT

 Remote monitoring of device content/reporting

SECURITY AND CONFIGURATION MANAGEMENT

 Remote configuration of security, user and denomination settings
