BRANCH TRANSFORMATION

Bring transformation solutions to both walk-up and drive-up locations.

Whether in the branch or on a remote ATM, Hyosung's Branch Transformation solution enables the most teller transactions at self-service.

While our competitors focus on video-first solutions, this approach never delivered the promised ROI.

Our software allows the freedom to complete most transactions without teller involvement and your business rules and the needs of your customers decide when video is appropriate. With nearly 100 customers live with our solution, Hyosung's software truly drives Branch Transformation.

Your Secure & Safe Choice

Hyosung is revolutionizing the self-service industry. The MX7800I & 7 Series gives your consumers a choice on how to interact: self-service or with the help of on-demand video assistance. These machines offers a robust set of transactions with core integration, greatly improving the traditional experience delivered by limited ATM choices. The modular design and high capacity allow for industry-leading availability and serviceability. Hyosung continue to receive the highest usability scores from customers and is the fastest growing ATM solution in the US.

Deposit Automation

The Hyosung 7 series machines provide a wide range of options for financial services to the customer. Equipped with bulk cash & check insertion modules the 7 is the perfect choice for your intelligent deposit needs.

Implementation can be done quickly and the modular architecture of the 7 allows for easy future upgrades and module modifications for maximum investment protection.

The model 7800 is a complete future proof solution, from basic ATM functionality to Automated Deposit, to full function Interactive Teller (ITM) capabilities. Ready for upgrades as your self-service strategies require.

HYOSUNG LAUNCHES NEW 7 SERIES ATMS

**Branch Transformation
ITM & ATM**

Press Release

IRVING, Texas, October 4th, 2022 – Hyosung America announced today the launch of three new Banking solutions that bridge the legacy of Hyosung's innovation and modular design with the industry's most transformational cash-automation solutions.

Hyosung Series 7 ATMs—Our most affordable, bank grade full-function ATM series is designed for moderate volumes and maximum performance. The new Series 7, which includes the 7T (thru-the-wall walk-up), 7D (thru-the-wall drive-up) and 7I (island drive-up), has a new, redesigned form factor to minimize footprint while maximizing usability. All devices come standard with a 5-high cash dispenser and CCIM Check and Cash Depositor. The Series 7 provides a modern update to the legacy 7600 ATMs.

Hyosung is the leader in Cash Recycling ATMs

Your customers want their banking experience to be quick and efficient, and you want to save money on operating costs. **Retail bank branch transformation solutions** from Hyosung America can help you achieve both of these goals. Using the latest recycling ATMs and integrated software, **bank branch automation** can save time and costs on 90% of standard transactions.

Forty percent of the operating costs of an ATM involve cash handling. Recycling ATMs can cut this cost by half by sorting and reusing cash that has been deposited by your customers. Core software integration allows you to automate most teller transactions. This can greatly reduce labor costs while improving the customer experience.

HYOSUNG

Triton

Hyosung 2800 & Halo II Walk-up ATM

Features:
10.2" Color TFT LCD Display
Windows CE Operating System
56K Dial-up & TCP/IP with TLS

ATM EQUIPMENT & SERVICE

Triton ARGO FT Drive-up or Walk-up ATM

For over 30 years, Triton ATMs have set the standard in innovative cash-dispensing solutions. ARGO, is the newest line of ATMs, is no exception.

ARGO features an updated, next-generation design with added elements of security, larger screens, and easier-to-read keypads or touchscreen options. For the first time in industry history, models are now available in an eco-friendly, printer-less model, reducing each machine's carbon footprint and resulting in cost savings over the life of the machine.

New updated design features larger wings for added PIN security, improved dispenser security, touchscreen options, and blue LED-lighted keypad for easy-to-read transactions.

Hyosung

Hyosung provides the most complete line of financial & retail ATMs in the world. From the advanced functionality Series 7 ATM (pictured to the right) to bulk check and bulk note deposit, to the retail 2800 CE (pictured on the previous page), these machines provide the functionality and reliability to ensure long term satisfaction.

CIMA
WHEREVER YOU COUNT

MoniSafe MS500 Teller Cash Recycler (TCR)

EXTERNAL TRANSIT CASSETTE

Experience a more secure and efficient cash management environment. The external cassette may be used to transfer cash to other MoniSafe 500 recyclers.

SELF-AUDITING

The MoniSafe 500 provides the option to self-audit its content without the need to physically remove cash from the unit by first moving it to the overflow cassette and then back to the original cassette.

HIGH CAPACITY

14,000 note total capacity or about \$275,000.

100% stacking cassettes, no out-dated RSM cassettes.

Recycling cassettes are denomination configurable to meet your unique needs.

WINDOWS 10

Not all TCRs are created equal. Equip your branch with the best and most digitally secure system platform available.

CONTINUOUS FEED

The continuous feed capability allows bulk deposit processing without slow down.

THE VALUE OF CASH RECYCLING

- ◆ Exceptional Customer Experience
- ◆ Increased Capability of Teller Interaction
- ◆ Maximum Availability
- ◆ Optimized Cash Management

BRANCH SOLUTIONS WITH TELLER CASH RECYCLERS

Atec LTA-380 & LTA-450

Unmatched performance

The Atec LTA-380 & LTA-450 are a teller-friendly solution that delivers optimal efficiency, convenience and security – all while allowing you to build better relationships with your customers.

The Atec TCRs can elevate service levels and increase profitability at the same time. While providing industry leading reliability and transaction speeds.

**Teller Cash Recycler
(TCR)**

Cash automation is not only about efficiency.
It's about opportunity.

Financial institutions must focus on opportunities to increase revenue. Every branch transaction is an opportunity to connect with your customers, build relationships and generate revenue. Cash automation creates a 20-second window during every cash transaction where the teller now has the opportunity to uncover customer needs and offer your solutions. Imagine the sales impact if each teller referred just one additional deposit sale per day.

ATEC LTA-380 Teller Cash Recycler

Operational Features

- Up to 12 denominations recycling (including foreign currency)
- Up to 17,100 notes of storage capacity
- Operation / Transit cassette for secure note loading and unloading and unattended self-audits
- Configurable cassette options for various capacity/denomination needs
- High resolution bill validator

Unique Features

- Up to 600 notes reject or escrow capacity
- Use as desktop currency counter, then automatically deposit the counted notes from output pocket
- Simple note path in the top tray for easy maintenance
- Small footprint • 8" foldable touch screen
- Built-in jam-clearing and operational instruction videos

Security Features

- Counterfeit note detection separates suspect notes to a dedicated pocket
- Automatic retract of untaken notes prevents exposed cash
- Serial number recording and note image capture
- Internationally certified safe

ATEC LTA-450 Teller Cash Recycler

CAPACITY/EFFICIENCY

- Higher capacity cassettes — up to 3800 notes
- Up to 22,800 note deposited
- True split cassette capability allowing for up to 12 recycling cassettes
- Upgraded electronics boards for expedited transactions
- Continuous feed for efficient transactions
- Automatic, unattended self-audit

SECURITY

- Serial number recognition and tracking
- Counterfeit/damaged note validation/return
- Operational cassettes accessible with tamper switch and lock and key
- Transit cassette accessible with safe exposure
- Reduced cash access and floor risk due to minimal transfers

CONVENIENCE/FLEXIBILITY

- Continuous deposit/withdraw capabilities
- Various cassette options (high capacity, split cassette, mixed denominations)
- Up to 128 denominations supported and 12 recycled
- 8" tilting touch screen for teller, multi-teller or customer use
- Note jam autorecovery
- Supports multiple currencies

AFFORDABILITY

With flexible integration options and unmatched BranchServ support and service, the LTA-450 makes high-capacity cash recycling a cost-effective solution for your bank or credit union.

MODEL 1500A COUNTER STATION

Fortis Custom Safes & Safe Deposit Boxes

Fortis Custom Steel Safes are manufactured using high tensile, shot-blasted steel for lighter weight installation and shipping

Fortis safe interiors can be configured to provide maximum utilization for your specific needs to begin designing a custom cash protection solution

BANK EQUIPMENT INTERIOR

Fenco takes pride in every cabinet manufactured; not only for the quality you see, but also for the construction design you may not see. They continually look for better ways to design our pedestal construction to maximize rigidity and functionality. It starts from the inside and works its way out, so it's not always what you see with the naked eye. A pedestal may look great the day you purchase it, but with Fenco it will work great years after your purchase.

Bank Equipment

Fenco Teller Pedestals & Modular Counters

Fenco remains a leading manufacturer of undercounter steel teller pedestals, storage units, filing cabinets, vault & safe interiors, millwork (such as teller counters, pods & check desks) and accessories to encompass all of our product lines.

Pneumatic Tube Carriers

A complete line of drive-up carriers. These carriers will fit all drive-up units available. They come in various sizes, colors, and either side opening or end opening.

BANK EQUIPMENT INTERIOR

5701 COIN TRAY

Our 5701 Coin Tray was designed for convenient counter-top use and has these features:

- Room for six (6) coin denominations of pennies, nickels, dimes, quarters, half-dollars, and dollars.
- Special rubber feet to avoid scratching surfaces (the rubber feet do not come off)

Designed to fit into the 5601 cash tray for easy storage of the teller's coins at shift-end or for breaks, know more.

5002 COIN SCOOP

Our model 5002 Coin Scoop fits into the bill compartment of either the 5001 ten compartment tray or the 5601 six compartment tray.

- Made of durable styrene
- Available in tan or black

Cash Trays and Locking Covers

Model 5001 or 5601 Cash Tray with 5003 Locking Lid.

- Made of painted aluminum
- Available in tan or black

5000RT Upsend—Pneumatic

Fortis's most popular unit – Includes option for fully integrated audio and video. The 5000RT features:

- Small footprint for new or replacement installations.
- Dual customer buttons for varying vehicle sizes.
- Twin turbines in the customer unit for high performance.
- Stainless steel and high impact enamel cabinet finish for polished appearance.
- Integrated soft landing feature extends carrier life, and extends product lifecycle.

Can be configured for manual teller or automatic teller options.

750-TD Transaction Drawer—Teller Deal Drawer

- Large-capacity, commercial design
- UL Listed for Level 1 bullet resistance
- Premium-grade audio components for clear customer communication

The 750-TD Features:

- Efficient and dependable performance with quiet operation
- Payload of 750 cubic inches
- Industrial style rail system designed for heavy use in a drive up or application
- Stainless steel fascia with microphones and speakers
- Full integration with 1500 series audio

Drawer bucket can be extended out to a maximum of 17"

Datrue has the signs to show your customers the way.

BANK EQUIPMENT EXTERIOR

WHY PAINT?

Post Guard saves you money & time

Post Guard bollard post covers come in a variety of sizes and colors to protect and enhance your property. Rusty and faded bollard posts are virtually eliminated with these fade resistant covers that will last for years.

Bank Equipment

After Hour Depositories

The Fortis After Hour Depository (AHD-106) is the perfect UL listed solution for drive up, walk up, or lobby depository needs.

The AHD 106 can be retrofitted to older applications or attached to a new safe and chute for new construction and renovation options. It includes:

- Meets ADA Requirements for 5lb Push
- Flush mounted stainless-steel fascia provides optimum endurance and finished appearance.
- Design is resistant to “fishing” or “trapping” attacks for deposits.
- Weather protected envelope storage.
- Release action mechanism produces a positive sweep of contents to prevent jamming or binding.

Fortis offers a number of standard designs and can custom design and build a depository to meet your needs

Canon

PANINI

DIGITAL CHECK

SmartSource®

Canon CR-120 & 150 Check Scanners & RP10 Thermal Receipt Printer

- Rapid scanning speeds of 120 or 150 checks per minute
- High-precision magnetic head for reading MICR code lines
- Built-in, pre-scan imprinter for audit trail requirements
- Capture important check data with exclusive Adaptive Threshold Mode
- Infrared Double Feed Detection and Paper Thickness Adjustment
- Handles larger items up to 4.2" x 9.0" in size
- Image capture in accordance with Check 21 standards

MICR ENCODERS & JOGGERS

MAVERICK *International*

Mx-3 Touch

Maverick's new Mx-3 Touch Exception Item Encoder has both a standard keyboard for quick entry and a Touch screen for navigation.. Maverick became the industry standard because MICR fields could be modified immediately via the keyboard. That allowed Maverick to deliver the Customer's desired change upon demand.

Now Maverick has gone a step further by allowing you, the End User, to make those changes safely and without assistance through our new Touch display interface. If you can use a cell phone, you can use the Touch!

SUPPLIES:

Datrue stocks MICR ribbons, Ink ribbons, Ink jet cartridges, Repair Labels, Journal Paper Rolls and cleaning cards for most all financial equipment that meets or exceeds OEM standards.

Please call us at 701-663-8930 Ext. 1 for all your Financial Equipment supplies.

SmartSource® SmartJogger

The Smart Jogger is a small, table-top, automatic check jogger. An important part of any Check 21 Branch Item Capture solution. Jogging a batch of checks for a few seconds in the check jogger, perfectly aligns bottom and side edges of checks which reduces chances of check jamming and double-feeding.

optional PC & monitor

MICR Encoders & Microfilm

ViewScan 4 Microfilm Crossover™ Digital Film Viewer/Scanner

Making The Most Of Your Investment In Microfilm.

The ViewScan is the computer peripheral that connects to your PC to bring microfilm into the digital world. With the ViewScan, you can quickly load any film type. The integrated 7x-105x optical zoom lens means you don't have to stop your research to change or adjust lenses. Powerful control and editing features are easy to use. The 9mp or 18mp high resolution image sensor can scan at any magnification letting you complete your look-ups quickly and efficiently.

Jaguar

SOFTWARE

Get Started Today

Jaguar Software is committed to developing and delivering affordable, user friendly, effective check processing software. They provide check processing applications for virtually any company managing checks or payments. Jaguar Software has been a leading software engineering company in the banking industry for over 20 years developing one of the first truly open Windows based systems. Jaguar realizes that their success is tied to the success of their customers and this success will be achieved by working closely with customers to share ideas and solutions to the business and technical challenges that arise.

They respond to customers' requests with a sense of urgency and focus on providing solutions that go above and beyond what is being asked of them.

Their ability to provide the very best product is accomplished by listening, understanding, and designing solutions that fit the needs of the customers.

allows you to build a secure electronic document repository by combining scanned documents, Microsoft Office files and other documentation such as email. The resulting electronic file cabinet can be searched by multiple indices.

Areas of application for this module include:

- Loan and Mortgage files
- HR documents
- Customer correspondence

utilizes any TWAIN compliant scanner and all common scan utilities, such as Canon, Fujitsu, HP and Panasonic.

enables you to securely review customer files on multiple PC's simultaneously

DynaCore

DYNACORE: TELLER CASH RECYCLER (TCR) INTEGRATION SOFTWARE

This is DynaCore™

Kick your branch up a notch.

- One DynaCore Console and License will support one TCR and connect to six online teller workstations.
- Full support for advanced TCR features (Audit, Add/Remove Cash Inventory with special cassettes).
- Active Directory OR Locally-controlled User Administration.
- Integrates Bill Discriminator totals along with TCR totals in the same deposit transaction.
- 15 customizable roles.
- Base Station option for standalone Buy/Sell cash transactions.
- Flexible Robbery Duress and Built-in Alarm Contacts.

RELIABLE

Powered by DynaCash™, DynaCore is the next evolution of the leading cash recycler software.

SEAMLESS

Intuitive design follows common sense logic resulting in a high teller adoption rate.

INTEGRATION

Merges all capabilities of any TCR or Bill Discriminator to work flawlessly.

DynaCore networks three simultaneous on-line users on the right side and three simultaneous on-line users on the left side. The cash recycler's sidelights will indicate which side is in use during a transactional operation. If all six users attempt to initiate a transaction through the recycler at the exact same time, only one user's action would successfully deploy. The other five users would be prompted to wait for availability. This is called "booking" or "reserving" the transaction availability.

**Computer
Services & Software**

DynaCash™ – Bank Teller Automation Software

Thousands of DynaCash™ Systems Have Been Installed at Banks, Credit Unions, Casinos, and Retail Stores Worldwide.

CC-5000
Terminal

Add-On Technologies, DynaCash

allows teller cash recyclers, (TCRs) and teller cash dispensers, (TCDs) to be driven by any Windows-based teller platform or retail application. As a true middleware solution DynaCash can be integrated into any environment without modification to your existing platform in a matter of minutes. The DynaCash suite of hardware and software allows an institution to integrate with TCRs & TCDs utilizing the complete functionality of newer models on a level beyond the scope of direct integrations. The DynaCash software is designed with adaptability in mind, allowing for the flexibility to integrate with any financial core or point of sale system.

The CC-5000 utilizes a proprietary codebase which enables us to offer an unparalleled level of security to your cash transactions. DynaCash can generally be installed and configured in less than 30 minutes with training also taking just a matter of hours. This greatly minimizes the down time and lost revenue associated with adopting new internal processes that your institution will incur. These features combine to offer a powerful, comprehensive solution for your dispenser and recycler needs.

COMPUTER SOFTWARE & SERVICES

CashWare

CashWare is Benchmark's flagship product used to support cash recyclers and cash dispensers. CashWare is middleware software that links the recycler or dispenser with your core provider teller application. Over the years, CashWare has gained popularity and become a favorite among tellers. Many sales are to replace other software products to extend the functionality of the hardware and teller application. Today, CashWare is endorsed by many manufacturers and core providers to provide customers with a higher level of functionality, reliability and ease of use and recommended with new installations.

CashLink

CashLink was developed to extend the functionality of currency counters by interacting with the teller application and automatically exporting deposit/withdrawal amounts into teller system transaction "cash calculators" or "total cash fields." CashLink eliminates bill count and amount keying errors and saves time through software integration and tracks the cash received or dispensed in any teller transaction.

Formax FD 342 - Tabletop Document Folder

The FD 340 folder is a fast, dependable and easy-to-use solution for virtually all folding applications. Six popular folds are clearly marked on the fold plates for quick setup. Adjustments can also be made to process unique custom folds.

The unique telescoping output stacker and optional Multi-Sheet Feeder give the FD 340 unmatched output ability and added folding versatility.

Formax FD 382 - Automatic Tabletop Document Folder

The FD 382 Document Folder is the ideal folding solution for any business which demands quick and easy setup. Six common folds are preset for 11", 14" and 17". All the settings are easily made with the use of a user-friendly control panel and LED display.

The FD 382 features a telescoping output stacker that holds up to 500 folded documents and a Multi-Sheet Feeder that gives operators the capability of folding up to three 20# sheets of stapled or unstapled paper at the same time.

Formax 6204 Series Automatic Folder Inserter Sealer

The 6204 Series brings advanced folding & inserting technology and flexibility to the office environment. A large, color touchscreen control panel with wizard job feature easily guides operators through setup and operation. AutoSet allows for one-touch setup of new jobs by automatically measuring paper lengths, envelope sizes and fold lengths. Recurring and frequent jobs run in AutoSet can also be stored as one of 15 jobs accessed with the push of a button. The powerful folding system enables the 6204 Series to accurately fold up to five sheets of paper at the same time.

PAPER FOLDERS & SHREDDERS

Datrue offers sales and service for Paper Shredders from small desk-side machines to large industrial machines capable of handling cardboard, credit cards, computer diskettes, CD's and plastic bindings, as well as standard size paper clips, staples and spring clips.

From strip cut models to high security (Department of Defense) certified cross cut models, Datrue is your one source for all shredder needs.

Datrue will help you analyze your needs before you select a shredder. Who will use the shredder? What are the paper sizes to be shredded (8-1/2 x 11, printout, complete file folders, reports, etc.)? How much paper needs to be shredded? Will this volume continue to grow?

Before you purchase the wrong shredder, talk to our experienced sales representatives about how we can help you select the machine that will satisfy your requirements.
